PPE Equipment

Spring 2020

This range will be available mid-to-end May, 2020. It will be supplied **without any personalisation** (ie 'plain stock', as pictured in the accompanying PDF of the brochure), and once in, will be delivered on a next day service.

I am expecting there to be a demand for this type of personal protection for the foreseeable future, in the health and care sector, as well as in wider industry and commerce, as every organisation will want to keep their staff and visitors safe. Some organisations will choose to order for 6/12 months at a time.

(Please refer to the attached PDF for the full description of each item)
